

## A simple way to remove pipework blockages

SLUDGEZAP 1 harnesses the power of friendly bacteria to cost-effectively break down and digest organic waste in pipework and soil stacks and improve the efficiency of septic tanks.

SLUDGEZAP 1 replaces costly, traditional removal methods such as rodding and pipe replacement, and removes the need for toxic chemicals, which pose potential health risks.

It is a safer, simpler and eco-friendly way to clear blockages.
